25 to have free cataract surgeries today

Jul 7, 2019

It's here again: Christmas in July—The Gift of Sight. Today, 25 patients will have cataract surgery done by the Trinidad Eye Hospital (TEH), in collaboration with Good Health Medical Centre in Woodbrook and a group of sponsors. It will be held from 6 a.m. to 1 p.m.

This initiative is one of two events held annually and precedes “The Gift of Sight” event in December for Christmas. To date, 100 patients have benefited from these charity events. As in the past, patients unable to afford cataract surgery and who have had to postpone or cancel appointments due to a lack of funds, will have their vision restored for free.
